

POWER LED linear flood light is with professional structure of heat dissipation, simple and elegant design, it is widely used for the highlight of outdoor wall with good effect. Also can use for accent lighting, flood lighting, wallwasher lighting area. It's applicable for beautifying the building, bridge, ancient architecture and etc...

Tough extrusion aluminium housing with anodized finish.  
Tempered glass diffuser.

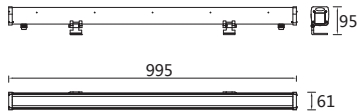

0°~120° tilt, easy to adjust the direction.

Unique & elegant design of heat dissipation.

Economical, stable performance.

Different beam angle from narrow to wide (10°~ 60°) is optional.

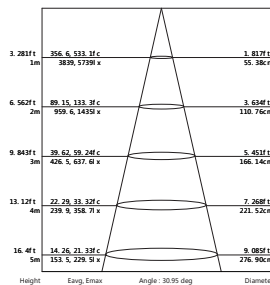

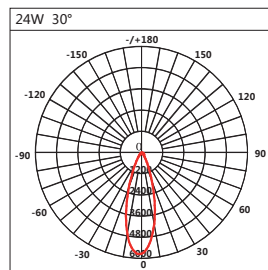

Custom length and different color is on request.

**Product Description:**

Ref.No	Watts (W)	Beam angle (△°)	Output Lumens (lm)	CCT (K)	Input Voltage (DC V)	CRI (Ra)	Weight (KG)	Control systems
88023228	24	15/30/60/10x80	1800	3000	24	>80	2.33	
88023218	30	15/30/60/10x80	full-color	RGB	24	-	2.35	DMX512
88023208	36	15/30/60/10x80	2700	3000	24	>80	2.35	
88023268	45	15/30/60/10x80	4100	3000/4000	24	>80	2.35	

\* Ra90 or above is on request.  
\* Other CCT are available upon request.  
\* Lumen output is concerned with different CCT.

\*IES files of different beam angle are available upon request.
