

# 48V TRACK SYSTEM & SPOTS

Sleek & versatile

since  
1996

## IT ALL STARTS WITH LIGHT

Three different quotations were received for a stunning bar. An interior designer stuck to a drawing table, finally realized the perfect colour to put on the walls. Endless discussions were held about the right chairs. The interior of a store, restaurant or hotel has to be on point. The design of the establishment determines atmosphere and appearance. It is part of your brand. But what to do with the lighting? How do you incorporate this into your design, to contribute to perception and atmosphere? Have you ever really thought about this?

## INTERNOVA X POWERGEAR 48V TRACK SYSTEM

With its sleek and subtle appearance, the Powergear 48V lighting track offers the perfect solution for high-end residential and hospitality applications. An extensive range of different subtle spots, linear- and decorative fixtures provide interior designers with maximum freedom to create unique and customized lighting designs. Powergear 48V lighting track is available in several surface-mounted and (trimless) recessed versions.
